

CL500 Essential Series Top-Load Coolers

The CL500 Essential Series Top-Load Coolers provides you with the same heavy-duty framework and internal hardware of the high-end coolers traditionally leased and sold through by professional water delivery companies, but at a significant cost savings. While they are durable enough to withstand years of abuse and heavy traffic, they also have a sleek, modern design that fits perfectly into any home or office decor, and a whisper-quiet running sound that will ensure they go unnoticed except when they are in use.

Features:

- High-efficiency compressor with the lowest cycle rate available ensures a long lifespan
- Convection cooling with internally spring-mounted, hermetically sealed compressor with automatic overload protector
- High-volume, 304 electro polished stainless steel hot and cold tanks with internal heating coils and copper refrigerant lines ensure no off taste to water

Options:

- CL500: Hot & Cold, White
- CL505: Cook & Cold, White
- CL520: Hot & Cold, Black
- CL525: Cook & Cold, Black

BOTTLED WATER COOLER SPECIFICATIONS

Start enjoying chilled water for drinking or baking. Experience the convenience of hot water for instant beverages, cereal, soups and tea, all at your fingertips with the Brio CL500 series cooler. This high-quality water cooler includes a full internal steel frame and a UV protected, high density polyethylene outer shell that is not only durable but easy to clean. The CL500 features a hygienic stainless steel water tank. It comes with a no spill top that fits 3-5 gal bottles. The one piece ABS drip tray is removable for easy cleaning and the entire unit is a breeze to move with a built in heavy duty handle on the back. The Brio CL500 water dispenser comes with a cold water thermostat so you can control the water temperature to your preference. Hot water is fixed at 185°F by an automatic thermostat, and has a child proof faucet.

Cabinet:

One piece UV-protected high density polyethylene (HDPE) blow cabinet. Eliminates the problem of rust and corrosion. Superior resistance to UV degradation. One piece blow molded cabinet is designed to allow cleaning and quick cabinet removal for convenient service. Handle on the back of the unit enable transport of the water cooler.

Faucets:

Durable polypropylene. Self closing type. Easy to operate.

Drip Tray:

One piece ABS drip tray is easily removed for cleaning.

Cold Water Tank:

Hygienic stainless steel. External refrigerant evaporator. Mechanically wrapped around tank. Removable insulation in molded expanded bead polystyrene contaminant resistant design. Adjustable cold water thermostat.

Cold Water Thermostat:

Temperature is controlled to 35.6°F-53.6°F (2°C-12°C)

Refrigerant Type:

R134a

Refrigeration Unit:

Convection cooled condenser, internally spring mounted hermetically sealed compressor with automatic overload protector. No lubricant needed. Refrigerant is controlled by accurately calibrated capillary tube. Quiet operation by the optimum design. Highly efficient cooling function.

Electrical:

110V - 120V (±10%) 50/60Hz provided with power cord.

Specifications	
Item Number:	White - CL500 (HC) CL505 (CC)
	Black - CL520 (HC) CL525 (CC)
Function:	Hot & Cold / Cook & Cold
Power Supply:	AC 110-120V 50HZ/60HZ
Net Dimension:	12.6" x 12.6" x 38.6"
Net Weight:	31 lbs.
Cold Tank:	
Volume of Tank:	4L
Consumption:	85W
Capacity:	5°C~10°C 2L/H
Hot Tank:	
Volume of Tank:	1.2L
Consumption:	425W
Capacity:	85°C~95°C 5L/H
